PROFESSIONAL SUMMARY

Third-year BCA student at Galgotias University (graduating 2027) with frontend development skills in HTML, CSS, and JavaScript. Built the responsive frontend of an AI-powered e-commerce product recommendation and comparison web application, deployed live on Vercel. Seeking a web development internship to apply these skills on real projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (Intermediate)
Web Design: Responsive Web Design, Mobile-Friendly Layouts
Tools: Git/GitHub (Basic), VS Code, Vercel, Microsoft Excel
Programming: Python (Foundational), C++ (Foundational)

PROJECT

AI-Powered E-Commerce Product Recommendation & Comparison Web Application
College Project | HTML, CSS, JavaScript | Deployed on Vercel
Live Demo: ai-powered-product-recommendation-comparison-and-1l795oab8.vercel.app

- Built the frontend of an AI-powered e-commerce web app using HTML5, CSS3, and JavaScript, as the primary frontend contributor on a team project.
- Developed the user-facing screens for product recommendations and side-by-side product comparison.
- Created a responsive interface that adapts smoothly to both mobile and desktop screen sizes.
- Deployed the app on Vercel and shared it as a live demo.
